Athletic Field Lights Illumine 1st Home Game

Dedication Takes Place As Sequoits Play Bensenville

A record crowd estimated at 1,000 persons attended the Antioch-Bensenville football game at which the newly-installed athletic field lights were dedicated Friday evening.

The presentation on behalf of the Antioch Lions club, sponsor of the project, was made by Harry J. Krueger, president.

Walter K. Hills, president of the Antioch Township High school board, accepted on behalf of the school district. T. R. Birkhead, principal, acted as master of ceremonies.

The high school band entertained during intermissions in the game, Antioch's first home conference encounter of the season—which the Sequoits lost, 6-19.

The lights were pronounced eminently satisfactory by those attending the game, and assurance was given by President Krueger that they would be found equal to those at any high school.

The Sequoits will play Palatine there this Saturday.

Homecoming events will occupy the following weekend. There will be a bonfire Thursday evening, Oct. 18. The annual parade through the downtown business section will take place the following afternoon, and the game with Northbrook is to be held in the evening.

The Homecoming dance has been set for Saturday evening, Oct. 20.

Firemen Elect Irving Elms as New President

Succeeds Petersen; Shultis, And Garland Are Re-Elected

Irving Elms was elected president of the Antioch Fire department to succeed Einar Petersen at a meeting Tuesday evening in the fire station.

Clarence Shultis was re-elected secretary and George Garland re-elected treasurer.

Verne Barnstable was chosen sergeant-at-arms. Delegates to the Lake County Firemen's association will be Alvin Keulman, three years; Verne Barnstable, two years; and Clarence Shultis, one year.

Einar Petersen was named captain and Merrill Cunningham first lieutenant to aid L. R. Van Patten, chief, and Cleve Vos, assistant chief.

Continue Inspections

Since the members of the fire department have been busy with the Antioch War Fund drive, for which they have acted as the committee this year, Antioch's Fire Prevention Week inspections of schools, business places and manufacturing plants may be continued over into next week, Chief Van Patten said Wednesday.

This will be Garland's twenty-fifth year as treasurer. Shultis is serving his twelfth year as secretary.

Louis Nielsen, Jr., Is on Purdue Squad

Louis Nielsen, Jr., who made an outstanding athletic record at Antioch Township High school, has been placed on the "traveling" football team at Purdue university, where he is a freshman.

He was a member of the group that went to Madison for the game which resulted in a victory over the University of Wisconsin last week. This was Purdue's third win, victories having been previously scored over Marquette university and Great Lakes.

Purdue will meet Iowa in a game this Saturday.

Lake Villa Club Hears Address on "Post-War Homes"

"Post-War Homes" was the topic of a talk given by Arthur W. Bergman at a 7 o'clock dinner meeting held by the Lake Villa Community Men's Club Tuesday evening in the Lake Villa gymnasium.

New committees for the coming year were appointed by President Dan S. Boyer during the business session.

In his talk, Bergman pointed out that many of the men now being discharged from the armed services are potential purchasers or builders of homes.

The Antioch-Lake Villa Rationing board is to be closed as of Nov. 1 and, together with other local boards of Lake county, will be consolidated with the Waukegan board, it is announced in a letter from M. V. Reynolds, chairman of Board 41-3, in a letter to Village President George B. Bartlett.

News of the Boys in Service

CAPT. W. E. SCHROEDER RETIRED FROM SERVICE

From C. K. Anderson comes the information that his son-in-law, Capt. W. E. Schroeder, has been granted a retirement from active service.

He served in the Army Air force for three and one-half years, 18 months of which were spent in the Pacific area. After his return to this country last February, he was attached to the ordnance department.

He will take charge of the C. K. Anderson company's enterprises, including real estate management, in Chicago.

He received his release at Fort Custer, Mich., Sept. 23.

Richard Stastny, RM 3/c, expresses the feelings of a lot of people about the war's end, and also does wonders for the morale of the News staff with his letter—

"It has been some time since I have written and I'm sorry, too, because now with my FPO number I don't get the News, so right now I will ask you, please, to put my name back on your list. My new address is USCG LS 88, c/o FPO, Seattle, Wash. I really miss the home town paper. It helps to bring the things you think about back there closer to wherever you find yourself.

"I guess everyone back there was thankful for the war ending, but for the News office it probably didn't mean a cut in work, since most of the boys are still gone. The News should be very proud of its record, and it has been a big help to the morale of us fellows and also since it was circulated to the farthest points that our troops went.

"I'm still sorry to say that I haven't ever met anyone from home since I left, but believe me, I'm still looking.

"Christmas should be quite an occasion this year in Antioch, with a lot of the vets home, and for a lot of them it's been a long time between Xmas'es at home.

"I really can't think of anything more to say, except, thanks again for the paper, and now I can sit back and anxiously await—News from home!"

It will be put up by a Waukegan firm specializing in steel structures.

Spencer Brown Found Victim of Heart Attack

Inquest Held Yesterday; No Funeral Arrangements Made

Death quietly turned the last page in the strange story of Dr. Spencer Brown, who was found Tuesday evening on the bathroom floor of his home at 257 Ida avenue, the victim of a heart attack believed to have occurred some time during the week-end.

Brown, 72, had spent the last years of his life in obscurity in Antioch, after figuring in headlines as bizarre as those of any fictional drama. At an inquest called in the Strang Funeral home here yesterday afternoon, the verdict given was "death from natural causes."

Lived Quietly

Since his wife, Bertha, died of a heart attack March 5, he had lived alone, apparently maintaining no contacts with relatives. Up to this morning, no arrangements had been made for funeral services or burial. His estate will probably be handled by the public administrator.

At various times rumors had been circulated that he had hoards of money or jewels, but it is believed that his holdings consisted mainly of parcels of real estate, including some at Loon Lake.

A dental chemist by profession, he had been doing some work for Dr. L. J. Zimmerman, by whom his body was found.

Alan Thain of Antioch placed third with his White Rocks in the heavy breeds class, while Philip Burke placed fifth with a pen of Barred Rocks. Thus Antioch club members won four out of the five prizes in the heavy breeds division.

Roberts, 30 Years Proprietor, Sells Merry Glen Hotel

Stewart-Warner Man Purchases Lake Marie Property

The best wishes of a legion of friends whom they have made during their 30 years at Lake Marie are following Mr. and Mrs. Herbert S. Roberts on their removal to Libertyville.

Mr. and Mrs. "Bert" have sold their Merry Glen hotel property at Shady Nook to Mr. and Mrs. William F. Terry, who plan to call it "Terry's Merry Glen" and to run it along the same lines on which it has been conducted in the past. Terry is connected with the Stewart-Warner corporation in Chicago.

In Libertyville, Mr. and Mrs. Roberts will make their home temporarily with their son-in-law and daughter, Mr. and Mrs. A. P. Simpson, at 308 Elm court. Mrs. Simpson was Miss Glenna Roberts before her marriage. Simpson is engaged in the grocery business in Libertyville.

Another daughter, Cornelia, is teaching in the American college at Istanbul, Turkey.

In letters written to her parents from Turkey, Miss Roberts has given some interesting glimpses of her life there.

For many months her main supply of clothing consisted of what she brought with her in her suitcase, as her trunk did not arrive until about a year later, and new clothing was hard to obtain and extremely expensive.

During the vacation periods Miss Roberts acted as a tutor in wealthy families.

Russell Dewar, 7, Succumbs to Auto Injuries

Passes Away in Victory Hospital 2 Days After Accident

Lake Villa and Antioch residents who had entertained strong hopes for the recovery of Russell Dwane Dewar, seven-year-old Lake Villa Grade school student, from injuries suffered in an accident last Thursday morning, were saddened by word of his death Friday at 8:40 p. m. in Victory Memorial hospital.

Funeral services were held in the Strang chapel Monday at 4 p. m. Interment was in Angola cemetery, Lake Villa.

Russell had suffered a head injury, shock and possible internal injuries when he was struck by a south-bound car driven by Frank Kennedy, Jr., of Antioch, when he ran from behind a passing north-bound truck. The accident occurred at 8:15 a. m. just south of the Grand avenue intersection, as the child was crossing the highway near his home to go to school.

It is believed that the lad may have become confused and frightened when he saw the car, as it is stated that he ran directly into its path. Kennedy stated that he endeavored to swerve his vehicle in an attempt to avoid striking the child, but was only partially successful, as Russell was struck by one of the fenders.

Kennedy and the lad's mother, who was in the yard of Dewar home nearby, took him to the office of a Lake Villa physician. Failing to locate the doctor immediately, they summoned Dr. I. L. Breakstone from Antioch, and Russell was removed to Victory Memorial hospital.

Although suffering from shock, he retained consciousness and seemed in excellent spirits until shortly before his death, when he passed into a coma from which he never recovered.

This is said to be the second accident involving children at this intersection.

Born at Antioch

Russell, who was born at Antioch had celebrated his seventh birthday only three days before his death, had just entered on his second year at the Lake Villa school, and was reported to be one of the high students of his class. He was highly praised by his teachers and was well liked by his classmates. He also attended the Lake Villa Sunday school.

He is survived by his parents, Mr. and Mrs. Russell Dewar of Lake Villa; four brothers, Larry, Dennis, Terry and Roger; his maternal grandparents, Mr. and Mrs. J. C. Lambert of Grand Marsh, Wis., and his paternal grandparents, Mr. and Mrs. William Dewar of Westfield, Wis., as well as many other relatives and friends.

Those attending the services from a distance were Mr. and Mrs. Lambert; Mr. and Mrs. William Dewar and Miss Shirley Dewar; Mr. and Mrs. Albert Lambert and Mr. and Mrs. Charles Lambert of Oxford, Wis.; Mr. and Mrs. Melvin Meyers and daughters Velma and Ruth Ann, Milwaukee; Mr. and Mrs. Raleigh Marshall and daughter Sharon of Westfield; Mr. and Mrs. William Zell of Beloit, Wis., and Private Robert Marshall, U. S. Army.

At a coroner's inquest held here Monday morning, Kennedy was exonerated of blame in connection with the tragedy and the accident was termed unavoidable.

Best Decorated Cars in Homecoming Parade Will Receive Prizes

(By Ralph Trieger)

With the Student council paying the way, plans for next week's Homecoming are gradually shaping up.

The annual snake-dance and bonfire will be held in the Village Park next Thursday from 7:00 P. M. to 8:00 P. M. Friday after school, a parade thru the village will precede the night game against Northbrook. On Saturday from 8:00 P. M. to 11:00 P. M., the Homecoming dance will be held, complete with ceremonies.

It has been suggested that students who own cars should decorate them to the best of their ability for the parade next Friday afternoon. The owners of the three best decorated cars will receive cash prizes for their efforts. The student body is being requested to make posters to carry in the parade. Any practical ideas to make this a bigger and better Homecoming will be gratefully received, the publicity committee announces.

Good Judgment Might

Help—on Both Sides

Some pretty loud outcries are being given forth, on both sides, in the labor-management tug-of-war that the end of hostilities seems to have left out on the country's front lawn.

It goes without saying that capital wants the biggest possible return for its invested money. It is equally obvious that labor wants the biggest possible return for its investment of effort.

And both have to produce goods or service in order to get any return at all, for neither labor nor capital can operate very well without the other.

The main thing seems to be not a question of their "getting together" and ironing out their difficulties—for that is something both will have to do, eventually—but of their finding a point of settlement that will be satisfactory to both.

Management and capital have had their problems during the war years, what with shortages of materials, labor and machinery, as well as transportation handicaps.

At the same time, not all labor has been getting "war wages," by any means. Thousands of workers have been "frozen" on jobs where their wages were also "frozen"—and they were pledged not to strike until the close of the war.

Add in a lot of other factors, including the natural stress and confusion attendant on the cancellation of many war contracts; nerve strain and fatigue resulting from long hours in many industries, and war-time worry; remember that labor shortages still exist in many fields, and will until a considerably larger number of men in the armed forces can be demobilized; bear in mind the fact that shortages of both materials and finished products are likely to last for quite some time yet—and all in all, we're quite surprised that matters have been as amicable as they have in the industrial field.

It looks to us, though, like a golden opportunity for the exercise of good judgment and tact—not to mention fairness—on the part of both labor and capital. The welfare of both is important to the whole country, as well as to themselves.

A Fake Santa Claus

Almost every day we read some statement from a member in Congress to the effect that taxes must be reduced to encourage production and employment. And then we read where local communities, towns and cities in all parts of the United States are to be advanced funds by some Federal bureau to finance projects, all the way from sewers, sewage disposal plants, water and school facilities, to billion-dollar power plants.

Some of these Federal funds are free grants, and some are to be repaid with or without interest at some questionable time in the future. Not only are these funds being provided from the Federal Treasury for purely local community activities, but political pressure is on for billions more to be spread by the government through every local community. And the men who talk tax reductions in one breath, vote for such costly programs of Federal handouts and domination of local political activity in the next breath. Centralized government always sinks its roots deeper into local affairs via the debt obligation route.

Why did the people about any noticeable tax reduction, while the presents from a Federal Santa Claus grow more numerous and costly? If the people stopped to think, they would know he is a fake Santa Claus because for every dollar gift he hands out, he first collects more than a dollar in taxes to pay for it.

Let's Have the Facts

In view of the amazingly fast change-over our factories made from war equipment of peacetime goods why aren't we getting badly needed new farm machinery and household appliances?

Why aren't our returning veterans and the displaced war workers getting the jobs that industry has ready for them in making and distributing these goods.

The truth will be coming out in the reports of two dozen of the nation's leading newspapermen who are now on a flying tour of 20 cities to inspect 50 industrial plants, from coast to coast, at first-hand.

In the traditional manner of American reporters, they will tell what they see, as they see it. They will give us the truthful answers to the questions posed above.

"If the people get the facts soon enough," says President Ira Mosher of the National Assn. of Manufacturers, making a transport plane available to the flying reporters for their tour, "maybe we can solve this threat of industrial strife before it is too late to rescue reconversion, prosperity and the full employment that goes with it."

"The time has come to smoke out the facts—the facts as they affect every American, his job, his bank account and his future."

AVCO BUYS CONTROLLING INTEREST IN NEW IDEA, INC.

Purchase by Diversified Company Involves \$8,160,000 if All Shares Are Tendered; Present Officers Will Be Retained

New York, Sept. 27.—The Aviation Corporation has contracted to purchase the controlling interest in New Idea, Inc., manufacturers of a wide range of farm machinery and implements, it was announced today by Victor Emanuel, chairman of the board of Avco.

It is expected that the transaction will be completed about the middle of October after the usual examinations have been made.

Acquisition of New Idea will give Avco a position in the basic agricultural implement industry and will be another step in the company's program of postwar diversification and expansion. It follows the recent purchase of control of The Crosley Corporation, makers of household appliances and owner of radio station WLW.

Under terms of the purchase, Avco will acquire in excess of 50 per cent of New Idea's 272,000 outstanding shares at a price of \$30 a share. The shares are being purchased under agreement with the four managing officers of the company, Henry Synck, Justin H. Oppenheim, Joseph A. Oppenheim and Theodore H. Oppenheim.

Upon consummation of the transaction a similar offer will be extended to all other stockholders for a 30-day period. Both transactions will be for cash and will involve a total commitment of \$8,160,000 if all shares are tendered.

New Idea, Inc., has manufacturing plants at Coldwater, Ohio, and Sandwich, Ill., and warehousing properties in other Eastern and Midwestern points. Distribution of its products is made through 3000 dealers serving trade in more than half the states. New Idea has a long and successful record in the farm equipment business, having been founded by the Oppenheim family in 1899.

During the war the company continued to produce farm machinery and therefore it faces no reconversion problem in meeting large backlogs of orders. Its sales and service organizations were maintained during this period.

Firemen Hope to Complete Antioch War Fund Quota

Approaching \$1,500 Goal As Final Reports Are Made

Hopes that Antioch township will prove the first in District 2, Region 1, to complete its War Fund drive quota are being entertained by the local fire department, which has acted as the committee for this year's campaign.

Funds turned in up to last evening totaled \$1,170.00. L. R. Van Patten, fire chief, said. In addition, \$200.00 had been reported, but not turned in by some of the canvassing committees, and other committees had not yet completed their reports. The quota this year is \$1,500.00.

Contributions are still being received for the fund. Persons who have not as yet had the opportunity to turn in their contributions may send a check or money order made payable to the War Fund and addressed care of the Antioch Fire department, or may bring their contributions to Van Patten at Williams' Department store.

The drive was climaxed with a street last evening in the downtown business section, with music by William Baned's sound system. There was a fair turnout of the younger people early in the evening, but the brisk weather kept many indoors who would otherwise have attended, and shortened the stay of others, considerably diminishing the crowd that had been expected.

Visitors to the affair from out-of-town included Roy James Battis, Chicago, secretary of the Suburban division of the drive, and C. A. Faulkner, Gurnee, district chairman. They congratulated the Antioch firemen on their part in the drive. Battis pointed out that although many members of the armed services are returning to civilian life, there will be many others away from home for some time to come. Entertainment facilities for these men and relief for distressed civilian populations abroad will still be an urgent need, he emphasized.

Youngest and smallest contributor to the fund is Bonnie Lee Van Patten, three-weeks-old, one and one-half-pound grand daughter of Chief and Mrs. Van Patten and daughter of Sgt. L. R. Van Patten, overseas in the Pacific area, and Hazel Buchert Van Patten, Antioch.

BARBARA BICKNELL ATTENDS CHICAGO U.

A news release from the university states that "she will receive the bachelor's degree at a time when students in the traditional college are just finishing their sophomore year, for the College of the University of Chicago accepts students as early as the junior year in high school."

NEW B. F. Goodrich PASSENGER TIRE OUTWEARS PREWAR TIRES!

New Passenger Car Tire with Safer-driving, Longer-mileage features

New, better
Synthetic Rubber

Developed by B. F. Goodrich—it's far better than ordinary synthetic rubber. Helps the new tire run cooler, wear better. It resists cracking, bruising and damage from accidents better too.

New, "Road Level" Tread
35% stronger tire body makes possible tread with a flatter contour—its whole width touches the road. More rubber on the road to share the wear—evenly. The tread design has hundreds of skid-resisting curves to grip—and stop quickly!

16,800,000 Test Miles
Has more test background than any previous B. F. Goodrich tire. Extensive laboratory tests plus 16,800,000 miles of actual road tests—on taxi fleets, police cars, and the B. F. Goodrich test fleet—proved it outwears prewar, natural rubber tires!

3 years' EXTRA synthetic tire experience
Three full years before any other manufacturer, B. F. Goodrich sold tires made with synthetic rubber to American motorists. This extra store of experience shows up in extra mileage... extra safety... extra value.
